

Light Cannon eLED

In the tradition of the original Light Cannon HID light, the Light Cannon eLED delivers an even brighter illumination and maintains this brightness throughout the battery life. The beam is wide enough for scanning the reef at night or exploration of the interior of a wreck. Using the dovetail handle attachment either pistol or lantern grips can be attached as well as a video arm.

FEATURES

- A pair of water cooled high intensity LEDs delivers over 10 watts of power.
- High color temperature gives the beam the same color as sunlight
- Brightness remains even higher underwater than in air with UK's unique LED water cooling design.
- Full and half-power switch can extend battery life even more
- Power circuit control maintains almost constant brightness with alkaline or rechargeable batteries
- Light from the eLED® is close to sunlight in color and travels farther through water for maximum visibility
- Non-breakable locking switch prevents accidental actuation.
- Dovetail slot for either pistol or lantern grip as well as video arm
- Front lens protected by heavy rubber boot for drop protection
- Tough, non-corroding ABS and polycarbonate plastic construction
- Rubber sleeve lanyard included
- Powered by disposable alkaline batteries or rechargeable UK NiCad Upgrade kit. Also uses individual nicad or NiMH C-size batteries
- Proudly made in the USA

PART NUMBERS

- 44651 Light Cannon eLED Pistol Grip, Safety Yellow
- 44652 Light Cannon eLED Pistol Grip, Black
- 44653 Light Cannon eLED Lantern Grip, Safety Yellow
- 44654 Light Cannon eLED Lantern Grip, Black

SPECIFICATIONS

	HIGH (alkaline)	LOW (alkaline)
Brightness	825 Lumens	530 Lumens
Burn Time	9 Hours	14 Hours
Distance	520 ft / 158 m - 431 ft / 131 m	
Lamp	(2) High intensity white LED	
Batteries	8 C Alkaline / LR14 OR NiCad (upgrade)	
Size	7.3 X 7.1 X 3.2 in / 185 x 180 x 81 mm	
Weight	36 oz / 1020 g (with batteries)	
Waterproof	500 ft / 150 m
