- Lightweight  
Only 1 Ounce More Than Standard Finger
- Fits All Hotsticks
- No More Shadows
- Passed 35 kV Arc Blast Test
- Designed by Linemen for Linemen

LitFinger part number 16001

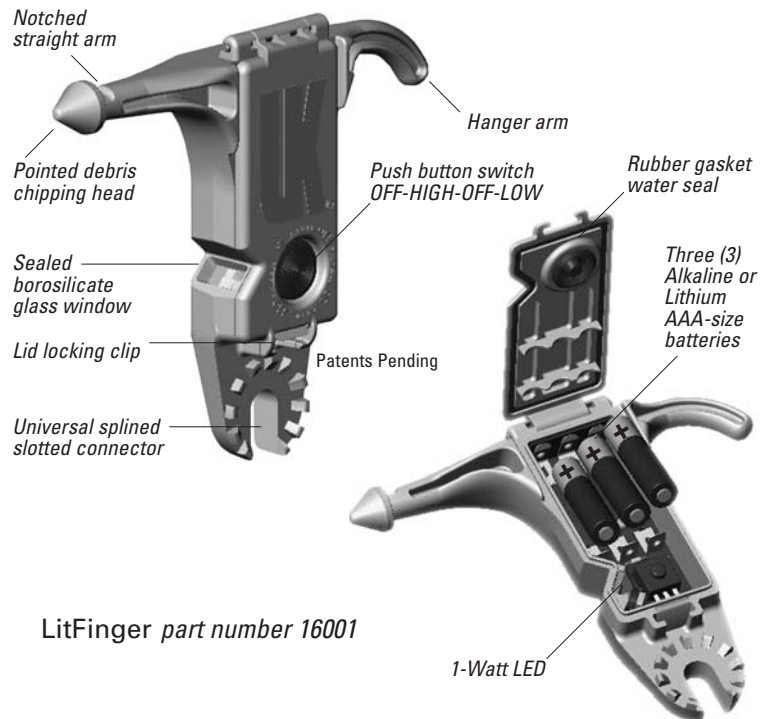

# LITFINGER™

Designed by Linemen for Linemen

The LITFINGER™ is the first hot stick finger light. It has a built-in LED light for use in dark or unlighted areas making it safer and more efficient for night operations. It fits all major hot sticks with splined universal slotted connector.

## Features Include

- Bright, unbreakable 1-watt LED light
- Light weight aluminum body, only 6.3 oz with batteries
- Pointed head for breaking off ice or debris
- Notched straight arm to secure fuse while lowering or raising hot stick
- Curved arm for hanging
- HI-LOW switch for increased battery life
- Water resistant battery compartment with sealed silicone rubber push button
- Sealed borosilicate window to resist heat and flash
- Passed 3000 V, 8000 A, 1/2 sec (30 cycles) arc blast test
- Easy access (no tools required) battery compartment door
- Universal splined slotted connector attaches to hot sticks
- Runs on three (3) AAA alkaline or lithium (cold weather use) batteries

LitFinger part number 16001

## LITFINGER SURVIVES 30,000° ARC BLAST

Hugh Hoagland of ArcWear stated that "Even after being exposed to a 35,000 degree arc blast, the LED still cast a bright beam."

## LitFinger Specifications

**Lamp:** 1-watt high intensity LED

**Lamp Life:** 50,000 hours

**Maximum Brightness:** 15 lumens (high); 7 lumens (low)

**Burn Time:** 4 hours (high); 10 hours (low)

**Voltage:** 3.6 volts

**Battery:** 3 x Alkaline AAA or Lithium AAA-cell

**Materials:** Aluminum body

**Size:** 5.7 x 4.8 x 0.8 inch

**Weight:** 6.8 oz with batteries

**Arc Blast Test:** Passed 3000 V, 8000 A, 0.5 sec (30 cycles)
