LITLINK

***Lights Any Tool
On Your Stick!***

Now UK gives you the tool you've needed all of these years for precision pole work. The UK LitLink lights up any tool on the end of your hot stick with bright white LED illumination. Makes work safer and more efficient.

- Lightweight, only 7 ounces
- Put it inline with any hotstick and tool setup
- Works with pigtail disconnect, broken bulb remover, bulb biter, saw, tie head, conductor cleaner brush, etc.

Lit Link
part number 16002

The LITLINK™ is the first hot stick tool light. By connecting it in line with any hotstick tool, the LITLINK's high intensity LED provides lighting for work in dark or unlighted areas. Night operations become safer and more efficient. Fits all major hot sticks and tools with splined universal slotted connector. Works with pigtail disconnect, broken bulb remover, bulb biter, saw, tie head, conductor cleaner brush, etc.

Features Include

- Bright, unbreakable 1-watt LED light
- Light weight aluminum body, only 7 oz with batteries
- Water resistant battery compartment with sealed silicone rubber push button
- Sealed borosilicate window to resist heat and flash
- Passed 3000 V, 8000 A, (10 cycles) arc blast test at 7 inches from the 12 inch arc
- Easy access (no tools required) battery compartment door
- Universal splined slotted connector attaches to hot sticks
- Runs on three (3) AAA alkaline or lithium (cold weather use) batteries

LitLink Specifications

Lamp: 1-watt high intensity LED

Lamp Life: 50,000 hours

Maximum Brightness: 15 lumens (high); 7 lumens (low)

Burn Time: 4 hours (high); 10 hours (low)

Voltage: 3.6 volts

Battery: 3 x Alkaline AAA or Lithium AAA-cell

Materials: Aluminum body

Size: 6.2 x 2.3 x 0.9 inch

Weight: 7 oz with batteries

Arc Blast Test: Passed 3000 V, 8000 A, (10 cycles) arc blast test at 7 inches from the 12 inch arc

LITLINK SURVIVES 30,000° ARC BLAST

"Excellent performance. Even after being exposed to a 35,000 degree arc blast, the LED still cast a bright beam," says Hugh Hoagland of ArcWear after completing his testing.
